

BU-137-A
(Adjustable Orange Insulator)

- Adjustable Orange insulator for Temporary Grounding Equipment
- Used as a strain relief to reinforce cables at the termination points when used with the cable support system
- Decreases strand damage to cables from age or mishandling which reduces current carrying capacity
- 6 ½" (165.1mm) long and accepts all grounding cables sized #2 – 4/0
- Weight = 1.58oz (45 grams)
